

# Nature.

Let nature be our teacher.

Nature is might.

Nature is usually always right.

Nature is beauty.

Nature is smart.

Nature is green.

Nature is true.

Nature is always with grace.

Nature will forever be free.

When we have a green nature our mind will fresh up. It will

change our body physically.

Save the nature it will save you later.

Nature is the most wonderful sight in the entire world.

If we have problems it will clear you.

Nature always wears the colours of beauty.

Thank you.
