

## Save trees.

Trees are very precious. Trees give oxygen to all living things. From trees only we get rain

Trees take carbon dioxide and release oxygen.

From trees we get food and cloths like cotton etc.

From trees we prepare paper in our life paper is

Very use full.

Trees also give flower.

Trees also give fruits.

Save trees and save earth.

Trees are also seen in agriculture purpose.

If save plants life it is help in future.

The plants are very beautiful in the earth.

Thank you.
